

Examination & Moderation Policy

Examination Cell · Internal circular EC/2026/07

1 Purpose

This policy supersedes EC/2024/03 and applies to all end-semester examinations from November 2026.

2 Confidentiality

Question papers are confidential documents. Setters must not share drafts over personal email or messaging apps.

3.1 Paper submission

Question papers must be submitted to the Examination Cell at least 21 days before the start of examinations. Each paper is reviewed by a moderation panel of two faculty members from outside the setter's course team.

3.2 Answer keys

Setters submit an answer key and a marking scheme with every paper.

4.2 Moderation

Moderation may revise marks by up to $\pm 10\%$ when a course's grade distribution deviates significantly from the department's three-year average. All revisions are recorded with justification in the moderation register.

4.3 Appeals

Students may appeal a moderated grade through the re-evaluation process described in the Academic Handbook.
